

BEAUCOUP

Co-funded by
the European Union

Project name: Boosting Digital Excellence and Aptitude of Universities in the Countries of East Partnership / BEAUCOUP

Project number: 101129280

Project lifetime: 36 months

Aim of the project:

- to increase teachers' digital competence and help them become more efficient in the technology-mediated learning environment,
- to stimulate the university staff to be more open-minded to embracing new tools and applications for digitalizing workflow, protection of natural resources, and a more sustainable future,
- to develop university capacity in providing sustainable digital professional development for educators at regional and national levels,
- to stimulate the Ministries of Education to support innovative universities and share their results at the state level.

Our project will equip the participating beneficiaries and countries with a vision and a strategic plan for digital excellence in higher education. BEAUCOUP will enhance technical, IT and digital competence in the target institutions and pave the way to developing sustainable digital professional support for educators of different levels (from kindergartens to doctoral levels). We believe that this project will establish solid grounds for the digital transformation of the partners involved and the spread of the project outputs across Ukraine and Azerbaijan or even the whole area of the Eastern Partnership region.

Projekti partnerite visiit Tartu Jogentaga Koolis:

17. veebruaril 2026. a. külastas Tartu Jogentaga Kooli haridustöötajate delegatsioon Erasmus+ projekti **Boosting Digital Excellence and Aptitude of Universities in the Countries of East Partnership (BEAUCOUP)** raames. Visiidi käigus tutvustati külalistele kooli õppekorraldust ja igapäevast tegevust ning nad said jälgida ka mitmeid õppetunde.

Kooli haridustehnoloog esitles külalistele digiõppe praktikaid ning tutvustas kooli veebikeskkonda, kus on koondatud õppematerjalid ja tehisintellektil põhinevad tööriistad õpetajate töö toetamiseks.

Lisaväärtusena oli külalistel võimalus tutvuda ka vabariigi aastapäeva ettevalmistustega, jälgides proovide kulgu, milles osalesid nii õpilased kui ka õpetajad.
